

# Setting SMART Goals

**SMART Goals is a structured goal-setting method that can help with managing specific obsessions or compulsions.** Making goals Specific, Measurable, Achievable, Relevant, and Time-bound can make it easier to stay focused and monitor progress. Each milestone reached can bring a sense of accomplishment, which may help counter some of the negative feelings that come with OCD. Rather than feeling stuck in the cycle of obsessions or compulsions, this approach offers a clear, structured path forward.

**What is your goal?** Write down exactly what you want to achieve. Avoid vague goals like "reduce compulsive checking". Be clear and detailed about what you expect to accomplish.

*I want to limit how many times I check the stove before I leave the house. Right now, I check it about three times. My goal is to check it only once.*

**How will you measure your progress?** Do you want to use a clock, calendar, or behavior chart? Do you want to measure your goal by hours, weeks, or days?

*I'll keep a daily journal where I write down each time I check the stove.*

**Is your goal realistic?** Aim for a goal that is challenging but still manageable. What steps can you take to make your goal achievable?

*Yes, I think it's realistic. I won't try to stop checking all at once, but I'll start by reducing it to two times a day, then down to one.*

**Does this goal align with your broader objectives?** Ensure that your goal is relevant and meaningful to your overall life or career goals. Reflect on the value and impact of achieving this goal.

*This goal is important because my compulsive checking is causing me anxiety and making me late for things. Reducing this behavior will help me feel more in control and improve my daily routine.*

**What is your deadline for achieving this goal?** Set a specific date by which you plan to achieve your goal. Identify immediate actions you can take to begin your progress.

*I want to reach my goal of checking the stove only once by the end of the next four weeks. I'll check my progress each week to make sure I'm on track.*

# Setting SMART Goals

**S** Specific

What is your goal?

**M** Measurable

How will you measure your progress?

**A** Achievable

Is your goal realistic?

**R** Relevant

Does this goal align with your broader objective?

**T** Time-Bound

What is your deadline for achieving this goal?

# Setting SMART Goals

## Be Flexible

If you're struggling to reach a goal, don't be afraid to adjust it. It's okay to change the timeline, make the goal smaller, or alter the steps as needed.

## Celebrate Milestones

Reward yourself for every step or milestone you reach, no matter how small. This could be as simple as taking a break, enjoying a favorite treat, or planning a fun activity.

## Give Yourself Enough Time

Make sure you have enough time to achieve your goals without feeling overwhelmed. It's better to allow extra time and feel accomplished than to set an unrealistic deadline and feel discouraged.

## Stay Patient & Be Kind to Yourself

Progress may be slow, and setbacks can happen. Remind yourself that change takes time, and be kind to yourself if things don't go perfectly.

What obstacles have I encountered, and how have I handled them?
