

## **Cognitive Restructuring**

Cognitive restructuring is a CBT tool that helps you spot and challenge negative or unhelpful thoughts. By taking a closer look at these thoughts, you can begin to replace them with more helpful and realistic ones. If you're feeling stuck in life, cognitive restructuring can help break down the mental barriers that make it hard to move forward, allowing you to rethink the limiting beliefs that hold you back.

### NEGATIVE THOUGHTS

What you think

Example: What's the point of trying? I'll never be able to change anything.

NEGATIVE BEHAVIOR What you do Triggering Event

Stuck in the same job for years.

NEGATIVE EMOTIONS

What you feel

Example: I avoid taking action, stop looking for new opportunities, and stay in the same routine.

Example: I feel frustrated and hopeless.

POSITIVE THOUGHTS

Here is an example of how a

negative thought causes negative

emotions and behaviors. Using

cognitive restructuring to change the thoughts can change the

emotions and behaviors.

What you think

Example: Change takes time, but I can take small steps toward new opportunities.

If you have a positive thought following a triggering event, positive emotions and behaviors follow. Those positive behaviors lead to more positive thoughts, and the positive cycle continues.

POSITIVE BEHAVIOR

What you do

Triggering Event

Stuck in the same job for years.

POSITIVE EMOTIONS What you feel

what you jeet

Example: I start researching new skills, networking, and apply for jobs.

Example: I feel hopeful and motivated.

# **Cognitive Restructuring**

### **THOUGHT**

What you think in a situation Ex: I'm the worst friend

### **EMOTION**

How you feel
Ex: I feel sad and hopeless

### **BEHAVIOR**

How you handle the situation Ex: Isolate and withdraw

It's important to understand that our automatic thoughts affect our feelings and influence our behavior.

You can recognize unhealthy thought patterns that are making your depression symptoms worse by practicing cognitive restructuring. Use the questions below each time you're experiencing unwanted thoughts that lead to unhealthy behaviors.

Thought:	
Is my thought factual?	
What evidence do I have to support my thought?	
What would someone else say about the situation?	
Is it possible to view this situation differently?	

## Additional Resources to Support Your Mental Health Journey

It can be hard to know where to begin looking for support in your mental health journey. Getting a referral from a primary care physician is a reliable first step. Also, sometimes family and friends have experienced similar issues and have professionals they would recommend. The experts at ChoosingTherapy.com are here to help as well, with resources we have reviewed and recommend. Our <u>strict editorial standards</u> ensure our reviews are fair, honest, thorough, and based on firsthand experience.

### You Can Trust Choosing Therapy.com

300+ Companies Reviewed
